

SOUTHWEST METALLURGICAL TESTING LABORATORIES
Independent Materials Analysis Report

Client: Rio Grande Magnetics, LLC (Client Ref: RGM-TX-01)

Report Number: SWML-2026-3387

Sample Reference: RGM-NDFEB-2026-0503

--- Composition Analysis ---

Element	Wt Pct
---------	--------

Nd	29.7
----	------

Fe	68.0
----	------

B	1.0
---	-----

Dy	1.3
----	-----

--- Mechanical/Magnetic Properties ---

Remanence (Br): 13.4 kG [PASS]

Coercivity (Hci): 12.0 kOe [PASS]

Energy Product (BHmax): 42.9 MGOe [PASS]

Discrepancies Noted: None

Material Origin Declaration (per client submission):

Country of Origin: United States

Source: Domestically collected scrap, single lot, no blending

Chain-of-Custody Segregation (per client attestation):

Attested: Yes

Responsible Party: Maria Alvarez, QA Lead, Rio Grande Magnetics

Control: Dedicated single-line sintering process; purged between runs.

Lot Mass: 168.5 kg

Report prepared by: Dr. Elena Vasquez, Lab Director, Southwest Metallurgical
Testing Laboratories

Client Signatory: Maria Alvarez, QA Lead, Rio Grande Magnetics, LLC
